

Student Association for International Water Issues

Agenda

1) SAIWI: Who are we?

The Student Association for International Water Issues (SAIWI) works to develop an understanding of global water issues and promote community empowerment through education and water resource development.

SAIWI: Mission

Develop an understanding of global water issues locally and internationally and apply our time and knowledge to cooperate with our partners' on-going projects in developing countries for the purpose of encouraging the proper development of water resources usage.
